SIERRAS
RESIDENCE

BUILDING 17 TYPE 3
Floorplans

Site Plan

*Numbers in orange refer to each building number.

DISCLAIMER

1. All room dimensions are measured to structural elements and exclude wall finishes and construction tolerance.

2. All dimensions have been provided by our consultant architects

3. All materials, dimesions and drawings are approximate, information subject to change without notice.

4. Calculation of suite area is measured as the area bounded by the center line of demising of party wall separating one unit from another, the exterior surface of all exterior walls, and the exterior surface of the corridor wall enclosing and abutting the unit.
5. Actual suite area may vary from the stated area. Drawings are not to scale. The developer reserves the right to make revisions.

6. Calculation of balcony area is measured as the area bounded by the inner lines of demising or party wall separating one unit from another, the outermost face of the enclosing guard and the external face of suite abutting the balcony.

7. The units are measured at typical floor in the building columns above this level may reduce in size, while floors below may increase in size.
